

ANZEL VICTOR F. BOTIN

Albay, Philippines | +63 927 491 0531 | anzelbotin@gmail.com | [LinkedIn](#) | [GitHub: BAILANN-ctrl](#) | [Portfolio](#)

SUMMARY

Full-stack developer with 3 years of production experience across React, Next.js, Node.js, and MySQL. Shipped features end-to-end, from database design to deployment, for a commercial studio and a regional government office. Comfortable owning a feature independently and communicating progress clearly.

WORK EXPERIENCE

IT Web Developer

March 2025 – ongoing maintenance

Studio Kosmos | Legazpi City, Albay | [Website](#)

- Spearheaded production and full-stack development of the company's client-facing platform (React, Next.js, Node.js, MySQL) with a team, including Google authentication, online payments, a booking calendar, and a secure client portal for digital photo delivery.
- Independently designed and shipped a photo-selection system that digitized a manual queue workflow, cutting customer wait time by an estimated 30–40%.
- Built and maintain REST APIs in Node.js backing the company website (React, Next.js, Tailwind), handling both feature work and bug fixes.
- Designed and manage the MySQL schema powering the site, including data integrity and query performance for growing traffic.

Web Development Intern (OJT)

Feb 2026 – Jun 2026

Dept. of Economy, Planning and Development — Development Research Division | Legazpi City, Albay

- Developed the Library Management Information System (LMIS) admin panel, built to support digital archiving of 5,000+ books and publications, including handling large file sizes (80MB+) for high-resolution scanned materials.
- Developed the Bicol Socio-Economic and Physical Profile (SEPP) system, presenting regional data from 2015–present across population, GDP/GRDP, labor force, employment, and income/expenditure statistics for public access.
- Designed and managed MySQL databases supporting both systems, focused on accurate storage, retrieval, and organization of structured government data.

PROJECTS

- [SoulFM](#) — React, Tailwind CSS, Node.js. Live radio streaming platform with an admin panel supporting event ticketing and payment integration.
- [Spot The Ai](#) — React, Tailwind CSS, HTML. Quiz game challenging players to spot AI-tampered images vs. real ones; built for National Innovation Day 2026.
